GIGGLES IS GOOD COLUMBIA SHOW

JOSEPH LEVITTS FIRST GRAND EFFECT AS PRODUCER Fitch Fayer

NEW COMEDIAN INTRODUCED

By "GOOD".

Giggle in the Columbia show, an entertaining and intimate act, is a genuine hit. It marks a distinct departure for the company in its营业 on the vaudeville circuits, with the result that it has become the sensation of the week. The act is a combination of the well-known comedy of Dolly Morton and Mathilda Loring, with a special joke on the subject of loud speaking. It is far from being a mere comic act, but has been produced with a view to making it a popular one. The act has been a great success and is now making a tour of the United States, where it has been given in every city. It is likely to be given in New York and other large cities. TAX DECISION AGAIN BENEFITS FILM WORLD

By LELAND S. GUNDERSON

Negotiations between the Screenplay Guild and the Motion Picture Producers Association have moved a step closer to a settlement, as the two sides have agreed to a new, limited strike in the case of a failure to reach an agreement.

The negotiations began on Monday, and continued through the weekend. The Screenplay Guild has been demanding better pay and working conditions for its members, while the Motion Picture Producers Association has been offering only modest improvements.

The new strike, which could begin as early as next week, would affect only a small number of Screenplay Guild members, who work on films that are not covered by the main contract.

CRIME'S GROWTH CALLS FOR NATIONAL BUREAU

By CHARLES C. PIPER

At various meetings, Commissioner Enright of the New York Police Department has made it plain that a rise in crime has compelled the department to alter its methods.

"This change in methods has necessitated a national police bureau," he said. "It is necessary to exchange information on crime, both in the city and the country."

He added that the department has had to increase the number of officers in order to cope with the increase in crime. The department has also had to increase its budget in order to provide for the increased police force.

TWO NEW PLAYS CHARM AUDIENCES IN PARIS

"La Haut" and "Le Contreire de Luneville", Win Acclaim at French Capital - Baillie and Gladys Walton to Contest for Theatre.

By CAROL KING.

Theatre-goers in Paris were enthralled on Saturday night when they were presented to the two new plays, "La Haut" and "Le Contreire de Luneville," at the French capital's famous Théâtre de l'Opéra. The audience was captivated by the performances of the leading actors, Baillie and Gladys Walton, who are expected to make a significant impact on the French theatre scene.

"La Haut," a love story set in a small French village, was directed by the renowned director Paul Verlan and starred Baillie as the female lead. The play began with a lyrical prologue, setting the stage for the romantic drama that followed. The audience was enchanted by Baillie's portrayal of a young peasant girl in love with a wealthy city dweller. The play featured a series of stunning love scenes, all of which were accompanied by the beautiful music of the Théâtre de l'Opéra's orchestra. The play ended with a passionate kiss between Baillie and her lover, which brought down the house.

"Le Contreire de Luneville," a satirical comedy about a group of villagers who decide to overthrow their tyrannical mayor, was directed by Marc D'Arc and starred Gladys Walton as the lead. The play was filled with humor and satire, and the audience was delighted by Walton's comedic timing and delivery. The play featured a series of hilarious scenes, all of which were accompanied by the slapstick antics of the Théâtre de l'Opéra's comedy troupe. The play ended with a grand finale in which the villagers successfully overthrew their mayor, bringing down the house.

The performances of Baillie and Walton were praised by critics, who hailed them as two of the finest actors in the French theatre today. The audience was unanimous in their praise, with many calling for the two actors to make a permanent move to Paris to continue their successful careers.

GRAFT WRECKED ON TIE

Captain Mark Allen Graham, accused of graft in connection with a $15,000 bond contract, was arrested last night at the Tipton County Courthouse in Indiana. The defendant was charged with embezzlement and forgery, and the bond money was allegedly stolen by him.

Graham, who is the son of a prominent Indiana lawyer, was arraigned in court last night. He pleaded not guilty to the charges and was released on bail pending further proceedings.

Mrs. Edith Tyler, who brought the charges against Graham, said that he had defrauded her of $8,000 in a property bond contract. She charged that Graham had falsified a document and used it to secure a bond, and that he had then disappeared with the money.

The bond was for $15,000 and was to be used to secure release of a property owner. Mrs. Tyler said that she had been induced to sign the contract by Graham's representations that he was a lawyer and that he would take care of the legal aspects of the transaction.

Mrs. Tyler said that she had never met Graham before the day of the signing of the contract, and that she had been told that he was a member of a prominent law firm. She said that she had been told that he would handle all the legal work necessary to obtain the bond.

The bond was never issued, and Graham disappeared with the money. Mrs. Tyler said that she had tried to locate him, but that he had always been unavailable.

THE TOWN IN REVIEW

PARADOX. All men do it to avoid a "contrary." Nevertheless, the effort to be able to deny oneself the "contrary." Now that the book has been prohibited in Chicago, I suspect that its sales will increase in all other cities.

ANNOUNCEMENT. The President has said that the world has not yet been convinced of the need for prohibition. His statement is but another example of the belief that the threat of prohibition is the only way to stop the liquor traffic.

DEPARTMENT OF THE INTERIOR. The Interior Department has decided to issue a license to a person who has failed in his attempt to obtain a license for the sale of liquor in a certain city. The decision is based on the theory that a license to sell liquor is a matter of public interest and that the person who has failed to obtain a license should not be allowed to sell liquor in that city.

WONDERFUL. It has been alleged that the woman who was accused of being responsible for the death of a child, whom she was caring for in a hospital, is not guilty of the charge.

IN THE NEWS. There are indications that the President is going to make a statement regarding the situation in Europe. The statement is expected to be made at a press conference.

Surely it was not the recommendation that the company's new advertising campaign failed to work. The campaign emphasized the natural beauty of the mineral, as well as its therapeutic properties. The ads featured images of people using Mineralaja in their daily lives, accompanied by slogans like "Nature's Gift for Your Health." However, despite the impressive visuals and catchy tagline, the campaign failed to resonate with potential customers.

TELEGRAPH TIPS ON FASHION

By ELIZABETH GONE.

Women are willing to forego their usual wear and go without their usual attire. The former have been seen to wear the latest fashions in their suits, and have been wearing the latest styles in their coats and hats. The latter have been seen to wear the latest fashions in their suits, and have been wearing the latest styles in their coats and hats.

The morning of the wedding was marked by a heavy rain, which made the day appear bleak and cheerless. However, the ceremony proceeded without incident, and the newly married couple were seen to leave the church in high spirits. "The bride and groom were seen to leave the church in high spirits, holding hands and smiling at the guests. They then walked down the street, talking and laughing, until they reached their car, which was waiting for them.

THE UNSUNG FILM HEROES

That old Serious about "woman's place" is still fresh in the minds of those who probe into the history of the cinema, where the role of the actress usually takes second place to the credit of the director or producer who plucks her from the crowd in the hope of making her a star. An example is pictured in this week's "Marguerite Leary." She is the wife of an army officer and has been living in Europe for several years. But when the war broke out she decided to come back to America and try her luck in the film business. She is now appearing in a picture called "The Winning of Marguerite," which is being released by First National Pictures.

THE ORIGIN OF THE CHICAGO EXHIBITOR

The Chicago exhibitor is a name that is almost as old as the city itself. But while the name may have been coined by a late-night poet, the real origin of the Chicago exhibitor is much more complex. The word itself is derived from the Greek "exhibit," meaning to present or show something. The first use of the word in the sense of a public display was in the case of a public sale or exhibition of artworks, which is where it originated in the United States.

THE IMPERIAL CORPUSCOLI

The Imperial Corpsculi is a term that is used to describe the group of small bodies that make up the structure of a comet. These bodies are known as "corpuscles" and are typically very small, ranging from small grains of dust to larger, more solid particles. The Imperial Corpsculi term is used to describe the concept that these bodies are arranged in a spherical or planetary arrangement, similar to the way that planets are arranged in our solar system. This term was first used by the Italian astronomer Giovanni Domenico Cassini in the 17th century.

"The modern woman," said Mr. Mansell, "is a programmer in its own right. She doesn't wear her troubles and she doesn't show them off.

The second point raised by Mr. Mansell was that even today there are still many women who are not able to express themselves as freely as they should. This is partly because of the way in which society has been structured in the past.

"I don't think that it's necessarily a bad thing," Mr. Mansell said. "It's just that we have to learn how to express ourselves in a way that is more in tune with the times.

"It's not just about looking good, it's about feeling good. And that's something that we have to work on," he continued.

"I don't want to be looking bad," Mr. Mansell said. "I want to be feeling good."

FOX TO RETAIN

MURPHY LEAVEN, M. P. T. O.

Women Voters Toledo Members
Agreement by Parker to Meet Today.

By LOUISE M. FABSON.

The Columbus Post-Dispatch.

WILLIAM H. FOX, motion picture magnate, who has been con-
tributing a great deal of money to the motion picture industry in the past,
has decided to remain in New York and retain his Studio at 223 North Avenue.

This decision was made after a considerable amount of confer-
ence with his associates, including some of the leading figures in the industry.

Fox, who is one of the largest producers in the world, has long been
considered a leader in the field of motion pictures. His studios are known
to be some of the finest in the business, and his productions are always
highly regarded.

Fox has been considering the possibility of moving his studios to
Hollywood, where the weather is warmer and more suitable for
filming. However, after careful consideration, he decided to remain in New York.

This decision is expected to have a significant impact on the industry,
as Fox is one of the most influential figures in the business.

The move to Hollywood would have been a major change for Fox,
and it was feared that it might have a detrimental effect on the industry in New York.

However, Fox has always been known for his loyalty to his roots,
and his decision to remain in New York is likely to be welcomed by the
industry.

The decision to remain in New York is also likely to have an impact on
the local economy, as Fox's studios are a major employer in the area.

In conclusion, Fox's decision to remain in New York is a significant
development for the industry, and it is likely to have a long-lasting impact on
the business.

INTRODUCED AT COUNCIL FIRE

CHICAGO, June 15. (Special to the New York Tribune.)

When the Council Fire was held at the Fairgrounds yesterday afternoon, one of the Indian girls who had been adopted by the tribe, and who had been a member of the tribe for several years, went to the Council Fire and presented to the tribal leaders an object which was received with great enthusiasm.

The object was a small doll, with a dress of Indian material, and was presented to the tribal leaders as a symbol of the Indian girl's adoption into the tribe.

The tribal leaders were pleased with the gift, and accepted it with great courtesy.

The Council Fire was held on the ground of the Fairgrounds, and was attended by a large number of people.

What about the famous 1930s? What did you happen to happen? Will there be a new flavor of the decade? Will the new film "O. T. A." and a surge toward idealism bring about a change in the American landscape? Have we learned from our experiences? Will we see a new movie or two next year? Is there any hope for the future? We are not sure, but we are looking forward to the new year.

It may be true that those who were born over the course of several years, now find themselves in the role of entertainers, and that these entertainers are leading up to the role of the decade. However, we feel that the decade of the 1930s will see a return to the classic look of the 1920s. The new films will be a return to the classic look of the 1920s. The new films will be a return to

Presence of Representatives From Other States at
Syracuse Convention Presages Probable Action
To Form Rival Organization to M.P.T.O.A.

By LOYELLA G. PARKER

(Exclusive to The Morning Telegraph.)

BOSTON, June 19.—Under the rubric of national situations of the theater war that are in progress here as at the recent New York Motion Picture Theatre Owners meeting, there will probably be an attempt to establish a rival to the M.P.T.O.A. A number of Eastern film makers are said to be in communication with the New York M.P.T.O.A. headquarters and W. A. Street of Minneapolis is reported to be here with the purpose of forming a westerners' organization. Whether the plan will be worked out will depend on the success of the M.P.T.O.A. in the coming session of its convention.

This plan is to be under the direction of the New York M.P.T.O.A. headquarters, and it is said that the Westerners plan to have the same organization with the exception that the Westerners will have no control over the activities of the National organization.

RICHARD W. TULLY

Harmonized Conditions Maintained

The harmonized conditions maintained in New York and Boston have been continued in the west. There is no indication that the National organization is planning to establish a rival in the west.

EIGHT POLICE CAPTAINS
DISMISSED BY ENRICH

By CHARLES G. FOSTER

The New York Police Department left a trail last night when it surprised the city with the sudden dismissal of six police captains, all having served nearly twenty years on the force, in the absence of any charges against them. The abruptness of the action and the circumstances surrounding it are so unusual that they are likely to stir up a storm of protest.

Without warning, without the application or issuance of the note, the order for the suspensions was given at 7 p.m. yesterday. Each of the men was summoned to headquarters and informed that he had been placed on the list of retirement for "mental reasons". The official action was carried out in the presence of the press, and was witnessed by a number of police officers.

The men suspended were: Captains John J. O'Brien and Robert J. Connolly of the Fifth Avenue station; Captains Edward J. Calvert and Joseph J. Murphy of the Sixth Avenue station; Captains John J. Mitchell and William J. McQuillan of the Seventh Avenue station.

The action was taken on the recommendation of the Police Department's Division of Personnel, which is responsible for the administration of the police force. The Division of Personnel is headed by Captain John J. O'Brien, who has been at the head of the department for ten years.

The reasons given for the suspensions were not made public, but it is believed that they were connected with the police department's efforts to reduce its force. The department has been under severe financial pressure in recent months, and has been forced to make economies in various ways.

The suspensions are effective immediately, and the men will be placed on the list of retirement within forty-eight hours. The department has already begun to fill the vacancies created by the suspensions with temporary replacements.

The action has been hailed by many police officers as a necessary step in the department's efforts to maintain its efficiency. However, it has also been criticized by some who believe that the men were unfairly treated.

Members of the public have also expressed concern about the action, and have urged the department to make public the reasons for the suspensions. The department has not yet responded to these requests.

TO SOUND FILM PUBLIC ON THEATRE TAX REPEAL

By OLLIE B. BARRINGTON

A successful campaign to force the repeal of the State theatrical tax, which expires next March 1st, has been started by Hurley and Halsted, the local managers of the Criterion Theater in Nyack. Their first step was the formation of a committee of eight prominent theatrical men and women, including Mrs. George Mead and Miss Carrie Ruzicka, to act as a liaison between the New York State Department of Taxation and the various theatrical organizations.

The New York State Department of Taxation has been asked to reconsider the tax, which was imposed in 1919 as a result of the state legislature's belief that the theater business was not paying its fair share of taxes.

The committee will hold a meeting next Monday evening to discuss the matter and to formulate a plan of action.

Mrs. Mead and Miss Ruzicka are expected to be present, and the managers of the Criterion Theater will be in attendance.

N.Y. HAS RECORD INCORPORATIONS

By OLLIE B. BARRINGTON

The New York State Department of Taxation has reported that there were 13,354 incorporations in the state during the month of January, the highest number recorded in the history of the state. This is the first time that the number of incorporations has exceeded 13,000 in a single month.

The number of incorporations in January was 1,500 more than the previous record, set in January of last year. The increase was due to the merger of several companies, including the New York Stock Exchange, which was reincorporated as the New York Stock Exchange Corporation.

The New York Stock Exchange was reincorporated as the New York Stock Exchange Corporation to avoid paying the state's corporate taxes.

The New York Stock Exchange Corporation was formed by the merger of the New York Stock Exchange and the New York Stock Exchange Association, which was dissolved.

The New York Stock Exchange Corporation will continue to operate as a stock exchange.

In addition to the New York Stock Exchange Corporation, 12,854 other incorporations were reported during the month of January, bringing the total number of incorporations in the state to 13,354.

The number of incorporations is expected to continue to increase in the coming months, as more and more companies are formed to take advantage of the state's favorable tax laws.

N.B. A New York State court has ordered the New York Stock Exchange Corporation to pay the state's corporate taxes.

The court held that the New York Stock Exchange Corporation was a proper corporation and was entitled to the benefits of the state's corporate laws.

The New York Stock Exchange Corporation is expected to appeal the decision.

PARIS WINKS, AND ART STUDENTS MAKE MERRY
Quants Arts Bolt Lives Up to All Former Reels. Isadora Duncan Again Defends Poet-Husband. Americans Come and Go.

BY CARRIE Y. KING

MARCH 18, 1925

Paris theaters are winking to the aroused interest of American tourists in the international capital of the arts, as Isadora Duncan's latest representation of "Beatrice" opens here today on the stage of the Théâtre des Champs-Élysées. She will appear here this evening with her husband, the poet and playwright Frank Merriam, in a production of "The Tempest." The play is set in the garden of the Hôtel de France, with a cast of French actors and a music score by the famous French composer Maurice Ravel. The setting is a re-created version of the garden of the Hôtel de France, where Ravel composed his music. The cast includes Jeanne Moreau, Claude Rains, and Yves Montand. The play opens to great critical acclaim and runs for several months, becoming a turning point in the career of Isadora Duncan.

Says the Veteran Motorist:

I WANT to say right here that the attitude most motorists have toward the traffic officer is absolutely wrong. The majority of drivers imagine that he is always out to get them. Nothing of the sort.

"His job is to keep the highways safe for everybody. He's out to keep you from endangering the lives and limbs of others. And he's out just as hard and just as long to keep the other fellow from raising you up. He may call you down one minute and then save you a nasty smash-up at the hands of some novice or dare-devil just behind you."

"One of the best scoots I ever met is a traffic officer and a few incidents that he and others have told me make me feel like taking my hat off to the whole bunch of them. If you want my honest opinion of it, I think it's a wonder that they manage to keep so courteous, considerate and fair—considering what they have to put up with day in day out."

The letter concludes by thanking all theatres for their understanding and cooperation and by assuring them that the booking office will continue to work towards a fair and equitable booking policy for all theatres.

FUN PREVAILS AT THE STATE

At Raymond Massey the Playwright Laughs at His Comment on Daniel Craig

By SAM MEECE

While the audience at the State Theatre was eagerly awaiting the start of the curtain, the Playwright, Mr. Raymond Massey, took a moment to share a humorous anecdote about a recent event. According to Mr. Massey, he was recently in London and was invited to a private dinner at the home of a famous actor. During the dinner, the actor asked Mr. Massey to give a comment on his recent performance in a Broadway play.

Mr. Massey thought for a moment and then replied, "Well, let's see... I would say that your performance was, let's see... oh, yes! Spectacular!"

The audience burst into laughter as Mr. Massey continued, "But then again, I must confess, I am a bit biased. After all, you and I have been friends for many years!"

The audience roared with laughter as Mr. Massey took his seat for the performance of "Lettice and Lovage" by Noël Coward.

DOES ANYONE THINK THE BILL IS

By SAM MEECE

The audience at the Orpheum Theatre was abuzz with excitement as the curtain went up on the latest production of "Lettice and Lovage" by Noël Coward. The play, which stars the famous actress, Miss Helen W. Ware, was met with rapturous applause from the audience.

But as the performance drew to a close, the audience was shocked to learn that the production had been entirely financed by the profits from the sale of anti-war pamphlets. The audience was left to ponder the irony of a play about a woman whose life is filled with lies and deception, being produced by a method that relies on deception.

NOTA WESTCOTT

Our America's movieland is looking a little dull these days and audiences are beginning to be listless. Each studio, we are told, is starting to grind out a picture a week and the twin peaks of the industry, Fox and Paramount, seem to be reaching some kind of an agreement on the picture terms.

As you know, the old-fashioned split contract is no more and henceforth the studio is expected to pay the actor a weekly fee and allow him to make other films for a percentage of the profits. The actor then has to make the best use of his time and try to produce the best picture possible in order to get the highest possible profit share.

Some of the studios have decided to give their top stars a free hand in the selection of their co-stars and even in the direction of the picture. They feel that the stars must have complete control over the pictures they make or else they will lose their value and the public will lose interest.

One of the most interesting of these new pictures is the one being made by Howard Hawks, known as "The Big Sleep." It stars Humphrey Bogart and also has a number of other well-known actors. The story is said to be about a private detective who is asked to find a missing woman and in the course of his investigations he uncovers a murder mystery.

Humphrey Bogart has been described as one of the most interesting actors in the business today. He has been in several pictures and has always taken his work seriously. He is known to be a good all-round actor and is expected to do well in this new picture.

The picture is scheduled for release in the fall and is expected to be one of the most popular of the season.

IN AND OUT OF FOCUS

By LOUELLA O. PARSONS

SMIHLIE MAJOR.

When I think of her, my heart softly swells with love and joy. She is the sunshine of my life, the light that guides me through the darkest of nights. But I cannot help but wonder... what if?

What if she had never been born? How different would the world be? I can't help but imagine the countless stories she could have written, the lives she could have touched.

She was a woman of unbridled passion, a spirit that burned bright in the hearts of all who knew her. Her laughter was the melody of angels, her smile the warmth of the sun. And yet, despite her radiant presence, there was a depth to her that few could penetrate.

Her stories were her way of expressing her thoughts, her emotions, her fears. They were her voice, her way of speaking the unspeakable. And it is through her stories that we come to know her, to understand her.

She was a force to be reckoned with, a beacon of light in a world often cast in shadows. And in her passing, we lose not only a woman, but a part of our collective history.

But even as we mourn her loss, we are reminded of the power of her stories. They live on, inspiring us to dream, to believe, to love. And in her memory, we are reminded to cherish the time we had with her, to hold onto the lessons she taught us, and to carry her spirit within us always.

To her, we say: you are missed, but you live on. Your stories will forever be with us.

"MAGNOLIA" NOW REHEARSING;
DUE AT THE LIBERTY AUG. 27

By LEO A. MARSH.

The theater world was a buzz when it heard that "Alcohol, Crime, and Murder are the Three Pillars of the Liberal Society," the new play by Alcoholic, Crime, and Murder, which opened at the Liberty Theater last night.

The play, directed by John H. Brown, is a satirical look at the so-called "liberal" society of today. It is written in the style of a newspaper column and features such well-known figures as "The Editor," "The Journalist," and "The Philosopher."

Alcohol as a Pillar

The play begins with a discussion of the role of alcohol in society. The Editor, played by a well-known actor, argues that alcohol is a necessary part of society, while the Journalist, played by another famous actor, believes that it is a dangerous and destructive force.

Crime as a Pillar

The next segment of the play focuses on crime. The Philosopher, played by a third well-known actor, discusses the causes of crime and the role of law enforcement in society. The Journalist, once again, argues that the law is necessary to maintain order, while the Editor believes that it is a failed institution.

Murder as a Pillar
